

Fund Overview

The WisdomTree Yield Enhanced Canada Aggregate Bond Index ETF seeks to track the price and yield performance, before fees and expenses, of the Bloomberg Barclays Canadian Aggregate Enhanced Yield Index, a rules-based index designed to provide exposure to Canadian investment grade bonds while enhancing yield. The Index re-weights subgroups of the Bloomberg Barclays Canadian Aggregate Index with the aim of earning a higher yield while maintaining a similar risk profile.

Index Description

The Bloomberg Barclays Canadian Aggregate Enhanced Yield Index uses a rules-based approach to re-weight subgroups of the Bloomberg Barclays Canadian Aggregate Index. To be eligible for inclusion in the Bloomberg Barclays Canadian Aggregate Index, debt securities must be rated investment grade, have a fixed rate coupon, have at least \$300 million in par amount outstanding, be denominated in Canadian dollars and have at least one year to final maturity. The Index employs a proprietary weighting methodology that seeks to enhance yield by allocating more weight to subgroups with higher yields while maintaining defined risk constraints designed to mitigate risk relative to the eligible Canadian investment grade fixed income universe. Subgroups with higher yields are identified based on a subgroup's yield to worst measurements, rather than its yield to maturity. Yield to worst refers to the lowest potential yield that can be received on a bond without issuer default. The Index also employs constraints that include caps on tracking error volatility, duration, sector and subgroup weights, and turnover. The Index is rebalanced on a monthly basis. The duration range of the Index is not generally expected to exceed the duration of the Bloomberg Barclays Canadian Aggregate Index by more than one year.

Performance

Total Returns as of 12/31/2018

Name	1-Mth	3-Mth	YTD	1-Year	3-Year	5-Year	10-Year	Since Fund Inception
WisdomTree Yield Enhanced Canada Aggregate Bond Index ETF	1.20%	1.14%	0.40%	0.40%	N/A	N/A	N/A	-0.19%
Bloomberg Barclays Canadian Aggregate Enhanced Yield Index	1.25%	1.23%	0.70%	0.70%	2.60%	4.34%	5.12%	0.03%

Commissions, management fees and expenses all may be associated with investing in WisdomTree ETFs. Please read the relevant prospectus before investing, which is available at WisdomTree.com. WisdomTree ETFs are not guaranteed, their values change frequently and past performance may not be repeated. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or operational charges or income taxes payable by any unitholder that would have reduced returns. Performance of less than one year is cumulative total return.

Please note that Canadian law does not allow the display of performance data for ETFs in operation less than one year.

Disclosures

The Bloomberg Barclays Canadian Aggregate Enhanced Yield Index was launched after the close on April 30, 2017. Performance of the Index prior to the launch date represents hypothetical back-tested data. This hypothetical back-tested data has been calculated by an independent calculation agent and has been included for illustrative purposes only. Index performance does not represent actual fund performance. Index returns assume reinvestment of distributions received but do not reflect fees, transaction costs or expenses. You cannot invest directly in an index. Past performance does not guarantee future results. BLOOMBERG® is a trademark and service mark of Bloomberg Finance L.P. and its affiliates (collectively "Bloomberg"). BARCLAYS® is a trademark and service mark of Barclays Bank Plc (collectively with its affiliates, "Barclays"), used under license. Distribution Yield: The yield is calculated by annualizing the most recent cash distribution and dividing by the Fund NAV from the as-of date. This figure is net of management fees and other fund expenses.

12-month Trailing Yield: The trailing yield is calculated by totaling cash distributions over the past 12 months and dividing by the Fund NAV from the as-of date. This figure is net of management fees and other fund expenses.

Management Expense Ratio (MER): As reported on the Fund's most recent Management Report of Fund Performance. MER is the total of the Fund's management fee and operating expenses, including all waivers and absorptions, and is expressed as an annualized percentage of the average daily net asset value.

Total Return (TR): Total return includes changes in the index value and reinvestment of all distributions before deduction of withholding taxes.

Net Total Return (NTR): Net total return includes changes in the index value and reinvestment of all net distributions after deduction of withholding taxes.

Effective Duration: A measure of the sensitivity of the Fund's price to changes in interest rate changes and is calculated as the weighted average of the individual bond durations. For each bond, it also addresses that interest rate changes can alter expected bond future cash flows through embedded options. The calculation is also expanded to incorporate the contribution of derivatives to the overall interest rate risk sensitivity to the portfolio.

Yield to Maturity: Represents the weighted average yield to maturity of a Fund's investments in money market securities and short-term fixed income securities as of a specified date. Yield to maturity is the rate of return generated on a fixed income instrument assuming interest payments and capital gains or losses as if the instrument is held to maturity. The weighted average yield is calculated based on the market value of each fixed-income investment. The calculation does not incorporate yield from any currency forward contracts that might be part of the Fund's investments and does not reflect Fund Expenses.

Credit ratings apply to the underlying holdings of the Fund and not to the Fund itself. S&P and Moody's study the financial condition of an entity to ascertain its creditworthiness. The credit rating reflects the rating agency's opinion of the holdings' financial condition and history. The ratings shown are all considered investment grade and are listed by highest to lowest in percentage of what the Fund holds.

Embedded Income Yield: The annualized rate of return generated by a Fund's investment in both fixed income securities and derivatives exclusive of interest rate changes and movement in foreign exchange spot rates. The calculation is intended to capture the Fund's potential to earn income return over the following year, given current holdings and market conditions. The embedded income yield will differ from the portfolio's yield to maturity due to the incorporation of derivatives in the embedded income yield.
