

### Fund Overview

The WisdomTree Canada Quality Dividend Growth Index ETF seeks to track the price and yield performance of the WisdomTree Canada Quality Dividend Growth Index, a fundamentally weighted index designed to provide exposure to dividend-paying Canadian companies with growth characteristics.

### Index Description

The WisdomTree Canada Quality Dividend Growth Index is a fundamentally weighted index designed to provide exposure to dividend-paying Canadian companies with growth characteristics. To be eligible for inclusion in the Index, component companies must be incorporated and have their shares listed on a major stock exchange in Canada, have paid at least US\$5 million in gross cash dividends on shares of their common stock in the prior annual cycle, and a dividend coverage ratio greater than 1. Component companies must have a market capitalization of at least US\$200 million and an average daily dollar volume of at least US\$200,000 for the prior three months. Shares of such component companies must trade at least 250,000 shares per month for the prior three months. Companies that pass the initial eligibility criteria, are then ranked and selected based on market capitalization, where the top 100 companies by share class market cap are selected for inclusion. The remaining companies are ranked based on growth and quality factors, and the top 50 companies with the highest combined rank are included. The Index is dividend weighted quarterly to reflect the proportionate share of the aggregate cash dividends each component company has paid over the prior annual cycle.

Commissions, management fees and expenses all may be associated with investing in WisdomTree ETFs. Please read the relevant prospectus before investing, which is available at WisdomTree.com. WisdomTree ETFs are not guaranteed, their values change frequently and past performance may not be repeated. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or operational charges or income taxes payable by any unitholder that would have reduced returns. Performance of less than one year is cumulative total return.

Please note that Canadian law does not allow the display of performance data for ETFs in operation less than one year.

**Disclosures**

**12-month Trailing Yield:** The trailing yield is calculated by totaling cash distributions over the past 12 months and dividing by the Fund NAV from the as-of date. This figure is net of management fees and other fund expenses.

**Distribution Yield:** The yield is calculated by annualizing the most recent cash distribution and dividing by the Fund NAV from the as-of date. This figure is net of management fees and other fund expenses.

**Management Expense Ratio (MER):** As reported on the Fund’s most recent Management Report of Fund Performance. MER is the total of the Fund’s management fee and operating expenses, including all waivers and absorptions, and is expressed as an annualized percentage of the average daily net asset value.

**Net Total Return (NTR):** Net total return includes changes in the index value and reinvestment of all net distributions after deduction of withholding taxes.

The **WisdomTree Canada Quality Dividend Growth Index** was launched on August 21, 2017. Performance of the Index prior to the launch date represents hypothetical back-tested data and has been included for illustrative purposes only. This hypothetical back-tested data has been calculated by an independent calculation agent and WisdomTree. Index performance does not represent actual fund performance. Index returns assume reinvestment of distributions received, but do not reflect fees, transaction costs or expenses. You cannot invest directly in an index. Past performance does not guarantee future results.

The MSCI Canada Quality Index CAD (NTR) includes large and mid cap stocks of the Canadian equity market and aims to capture the performance of quality growth stocks by identifying stocks with high quality scores based on three main fundamental variables: high return on equity (ROE), stable year-over-year earnings growth and low financial leverage.

**Total Return (TR):** Total return includes changes in the index value and reinvestment of all distributions before deduction of withholding taxes.
