

Fund Overview

The WisdomTree Europe Hedged Equity Index ETF seeks to track the price and yield performance of the WisdomTree Europe CAD-Hedged Equity Index, a fundamentally weighted index designed to provide exposure to dividend paying European equities while hedging exposure to fluctuations between the Euro and the Canadian dollar.

Index Description

The WisdomTree Europe CAD-Hedged Equity Index is a fundamentally weighted index designed to provide exposure to dividend paying European equities while at the same time neutralizing exposure to fluctuations between the Euro and the Canadian dollar. In this sense, the Index "hedges" against fluctuations in the relative value of the Euro against the Canadian dollar. The primary starting screening universe for the Index is the constituents of the WisdomTree International Equity Index¹ that are domiciled in Europe and are traded in Euros, have at least \$1 billion market capitalization, and derive at least 50% of their revenue from countries outside of Europe. The component securities are weighted in the Index based on annual cash dividends paid.
