

Fund Overview

The WisdomTree Japan Equity Index ETF seeks to track the price and yield performance of the WisdomTree Japan Equity Index CAD, a fundamentally weighted index designed to provide exposure to Japanese equity markets. The exposure that the portion of the Fund's portfolio attributable to the Non-Hedged Units has to the yen will not be hedged back to the Canadian dollar.

Index Description

The WisdomTree Japan Equity Index CAD is a fundamentally weighted index designed to provide exposure to Japanese equity markets. The Index consists of dividend-paying companies incorporated in Japan and traded on the Tokyo Stock Exchange that derive less than 80% of their revenue from sources in Japan. By excluding companies that derive 80% or more of their revenue from Japan, the Index is tilted towards companies with a more significant global revenue base. The companies included in the Index typically have greater exposure to the value of global currencies and, in many cases, their business prospects historically have improved when the value of the yen has declined and have weakened when the value of the yen has increased.

Commissions, management fees and expenses all may be associated with investing in WisdomTree ETFs. Please read the relevant prospectus before investing, which is available at WisdomTree.com. WisdomTree ETFs are not guaranteed, their values change frequently and past performance may not be repeated. The indicated rates of return are the historical annual compounded total returns including changes in unit value and reinvestment of all distributions and do not take into account sales, redemption, distribution or operational charges or income taxes payable by any unitholder that would have reduced returns. Performance of less than one year is cumulative total return.

Please note that Canadian law does not allow the display of performance data for ETFs in operation less than one year.

Disclosures

12-month Trailing Yield: The trailing yield is calculated by totaling cash distributions over the past 12 months and dividing by the Fund NAV from the as-of date. This figure is net of management fees and other fund expenses.

Distribution Yield: The yield is calculated by annualizing the most recent cash distribution and dividing by the Fund NAV from the as-of date. This figure is net of management fees and other fund expenses.

Management Expense Ratio (MER): As reported on the Fund’s most recent Management Report of Fund Performance. MER is the total of the Fund’s management fee and operating expenses, including all waivers and absorptions, and is expressed as an annualized percentage of the average daily net asset value.

Net Total Return (NTR): Net total return includes changes in the index value and reinvestment of all net distributions after deduction of withholding taxes.

The WisdomTree Japan Equity Index CAD was launched on April 9, 2018. Performance of the Index prior to the launch date represents hypothetical back-tested data and has been included for illustrative purposes only. This hypothetical back-tested data has been calculated by an independent calculation agent. Index performance does not represent actual fund performance. Index returns assume reinvestment of distributions received, but do not reflect fees, transaction costs or expenses. You cannot invest directly in an index. Past performance does not guarantee future results.

Total Return (TR): Total return includes changes in the index value and reinvestment of all distributions before deduction of withholding taxes.
