## Annual Management Report of Fund Performance

For the period ended December 31, 2016

### MANAGEMENT REPORT OF FUND PERFORMANCE

WisdomTree Asset Management Canada, Inc. (“WisdomTree”) is pleased to provide you with the Management Report of Fund Performance (“MRFP”) for the WisdomTree International Quality Dividend Growth Index ETF (the “ETF”) for the period ended December 31, 2016. The ETF trades on the Toronto Stock exchange (the “TSX”) under the ticker symbols IQD (Hedged Units) and IQD.B (Non-Hedged Units).

WisdomTree is the trustee, manager and promoter of the WisdomTree ETFs. Mellon Capital Management Corporation (the “Investment Advisor”) is the investment advisor to the WisdomTree ETFs.

### Investment Objectives and Strategies

The investment objective of the ETF is to track, to the extent possible, the price and yield performance of the WisdomTree International Quality Dividend Growth Index CAD (the “Index”), before fees and expenses. The Index is a fundamentally weighted index designed to provide exposure to dividend paying developed market companies with growth characteristics.

The investment strategy of the ETF is to invest in and hold a proportionate share of the constituent securities of the Index, or other securities, to track the price and yield performance of the Index. The ETF uses derivative instruments to hedge the foreign currency exposure of the securities attributable to the Hedged Units to the Canadian dollar. Any foreign currency exposure of the securities attributable to the Non-Hedged Units will not be hedged to the Canadian dollar.

### Risk

No material changes were made which affected the overall level of risk associated with an investment in the ETF for the period ended December 31, 2016. The overall level of risk associated with an investment in the ETF remains as disclosed in the prospectus dated July 6, 2016.

### Results of Operations

From the ETF’s inception to December 31, 2016, the ETF operated in accordance with its investment objective of tracking the Index. Additionally, the Index did not undergo methodology or strategy changes during that period.

The developed international equity market, as measured by the MSCI EAFE Index, returned 5.34% in local currency terms and (2.49)% in Canadian dollar terms for the 12-month period ended December 31, 2016. While the early part of 2016 saw multiple bouts of volatility associated with slumping oil prices and slower global growth, the market largely recovered as those concerns faded. Despite some initial shockwaves following the British referendum vote to leave the European Union, the developed international asset class ended the year in positive territory in local currency terms. The two best performing sectors since the ETF’s inception on July 12, 2016 to December 31, 2016, were financials and materials, up about 26% and 21% respectively. Conversely, the two worst performing sectors were consumer staples and health care, down about 3% and 5% respectively. This proved to be a headwind for the ETF as the portfolio was underweight financials by about 15% and overweight health care by about 7% relative to the MSCI EAFE Index.

Additionally, the Canadian Dollar strengthened with a rebound in crude oil, which is a major component of the Canadian economy, and increasing interest rate differentials between Canadian rates and international sovereign rates. The performance of the Hedged Units and Non-Hedged Units diverged as the strengthening Canadian dollar acted as a tailwind to the returns of the Hedged Units.

### RECENT DEVELOPMENTS

There have not been any material changes to the management of the ETF. As required by National Instrument 81-107- *Independent Review Committee for Investment Funds* (“NI 81-107”), WisdomTree has established an independent review committee (the “IRC”) to review all conflict of interest matters identified and referred to the IRC by WisdomTree and to give its approval or recommendation, depending on the nature of the conflict of interest matters. The current members of the IRC for WisdomTree ETFs are as follows:

Name	Municipality of Residence
Karen Fisher <sup>1</sup>	Newcastle, Ontario
Gerry O’ Connor	Woodbridge, Ontario
Steven Rostowsky	Thornhill, Ontario

<sup>1</sup> Chair of the IRC

### RELATED PARTY TRANSACTIONS

WisdomTree is the trustee, manager and promoter of the WisdomTree ETFs and is responsible for the administration of the WisdomTree ETFs. Each WisdomTree ETF pays the manager a management fee (see “Management Fees” below).

## Management Fees

The ETF pays WisdomTree a management fee as set forth in the table below based on the average daily net assets value of the ETF. The management fee, plus applicable taxes, is accrued daily and paid monthly in arrears. WisdomTree may, from time to time in its discretion, waive all or a portion of the management fee charged at any given time.

	Management Fee Rate

Trading expense ratio <sup>6</sup>	0.31%
Portfolio turnover rate <sup>7</sup>	2%
Net asset value per unit	\$ 20.34
Closing market price	\$ 20.47

\* Commencement of operations.

<sup>1</sup> This information is derived from the ETF's audited annual financial statements.

<sup>2</sup> Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the period.

<sup>3</sup> Distributions were either paid in cash or reinvested in additional units of the ETF, or both. Reinvested units were consolidated.

<sup>4</sup> This information is provided as at December 31, 2016.

<sup>5</sup> Management expense ratio is based on total expenses (excluding commissions and other portfolio transaction costs) for the stated period and is expressed as an annualized percentage of average daily net asset value during the period.

<sup>6</sup> The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of average daily net assets during the period.

<sup>7</sup> The ETF's portfolio turnover rate indicates how actively the ETF's portfolio manager trades its portfolio investments. A portfolio turnover rate of 100% is equivalent to the ETF buying and selling all of the securities in its portfolio once in the course of the period. The higher a portfolio's turnover rate in a period, the greater the trading costs payable by the ETF in the period, and the greater the chance of an investor receiving taxable capital gains in the period. There is not necessarily a relationship between a high turnover rate and the performance of the ETF.

## PAST PERFORMANCE

The ETF's performance information shown assumes that all distributions made by the ETF in the periods shown were reinvested in additional units of the ETF. These returns do not take into account sales, redemption, distribution or optional charges or income taxes payable by any unitholder that would have reduced returns. These returns do not indicate how each class of the ETF will perform in the future.

### Year-by-Year Returns

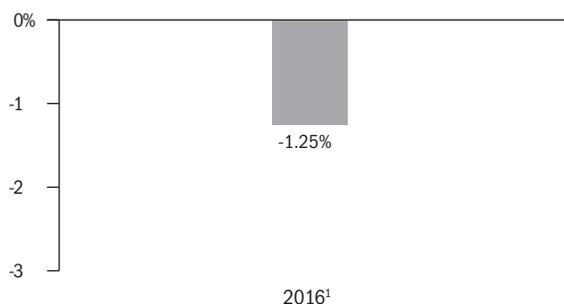

The following bar chart shows the performance of the ETF for the period. The chart shows in percentage terms how much an investment made on the first day of the period would have increased or decreased by the last day of the period.

#### Hedged Units

**Redemption of Securities**

Units of the ETF are listed for trading on the TSX and may be purchased or sold through the facilities of the TSX on any day that the TSX is open for business. You may also redeem (sell) your units of the ETF on any Trading Day (as defined in the ETF's prospectus), generally any day that the TSX is open for business, for the lesser of (i) 95% of the closing price for the units on the TSX on the effective day of the redemption, and (ii) the net asset value per unit on the effective day of the redemption.

In order for a cash redemption to be effective on a Trading Day, a cash redemption request in the form prescribed by WisdomTree from time to time must be delivered to the applicable WisdomTree ETF at its registered office by 9:00 a.m. (Toronto time) on the Trading Day. If a cash redemption request is not received by the delivery deadline on a Trading Day, the cash redemption request will be effective only on the next Trading Day. Payment of the redemption price will be made by no later than the third Trading Day after the effective day of the redemption. The cash redemption request forms may be obtained from any registered broker or dealer. Investors that redeem Units prior to the distribution record date for any distribution will not be entitled to receive that distribution.

For complete information regarding the redemption privileges, including pricing, please see the ETF's most recent prospectus at [www.sedar.com](http://www.sedar.com)
