The Bloomberg Barclays Canadian Short Aggregate Enhanced Yield Index was launched after the close on 4/30/2017. The index is a rules-based index designed to provide exposure to short-term Canadian investment grade bonds while enhancing yield. The Index re-weights subgroups of the Bloomberg Barclays Canadian Aggregate Index with effective maturities between 1 and 5 years with the aim of earning a higher yield while maintaining a similar risk profile. Index values prior to the launch date represent hypothetical back-tested data. This hypothetical back-tested data has been calculated by an independent calculation agent and is presented for illustrative purposes only. Index values assume reinvestment of distributions but do not reflect fees, transaction costs or expenses. You cannot invest directly in an index. Index performance does not represent actual fund performance. Past performance does not guarantee future results.
